MEGADECK HD+ COMPOSITE MATS

★ BUILT TO PERFORM. BUILT TO LAST. ★

MEGADECK HD COMPOSITE MATS

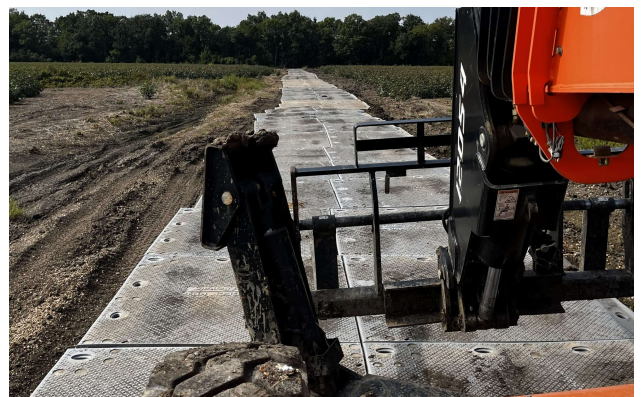

High-performance ground protection panels engineered for heavy machinery traction and absolute sub-grade lock.

STANDARD SIZING: 7X14

Full 105sq. ft. actual layout footprint with 4" thick engineering profile.

- **ACTUAL SIZE:** 7"L x 14"W x 4" H
- **USABLE AREA:** 6.5' x 13' W (84.5 sq. ft.)
- **WEIGHT:** 1,025 lbs (464.9 kg) per panel
- **LOAD LIMIT:** up to 600 psi pressure loading
- **MATERIAL:** HDPE Composite (UV & Anti-Static)
- **FREIGHT:** 40 mats per standard 48 ft. flatbed

DEPLOYMENT OVERVIEW

Our composite road mats contour perfectly to soft sub-grades, bridging marshes, mud, and sand seamlessly. Designed to absorb severe shock loads from tracked equipment while offering zero-gap connections.
