Our Products

- Timber Mats 8"
- Crane Mats 12"
- Laminated Mats (3-ply mixed hardwood)
- Composite Mats
- Transition Mats
- Lagging Mats (cut to size materials)
- Used Mats
- Custom Sizes
- Pipeline Skids
- Railroad-ties/ Cross-ties

Our Services

- Crane Mat Rentals
- Mat Leasing Programs
- Mat Sales (new & used)
- Mat Buyback
- Mat Installation/Removal
- Logistics & Delivery Coordination
- Mat Storage
- Disposal of Mats
- Land Clearing & Lot Preparation
- Site Restoration
- Industrial Equipment Storage
- Buy & Sell Equipment
- Custom Mats Design & Sizing

OUR PRODUCTS

Matting solutions for construction, energy, infrastructure & heavy equipment

CRANE MATS

Used to support heavy equipment like cranes and excavators, protect surfaces (like barge decks), and create stable ground or temporary crossings.

- 12" Thick from 16' to 40' in Length.
- Manufactured with Mixed Hardwoods
- Exposed bolts
- Transition/Wedge Mats.
- Custom Sizes Available.

LAMINATED MATS

Used as a temporary road, ground stabilization platform, and ground protection for vehicles under 100,000 lbs

- 3 Ply Laminated Mat
- 6" Thick
- 8' Wide
- 12', 14', or 16' in Length
- Bolted
- Chains for Lifting
- Made w Mixed Hardwoods

COMPOSITE MATS

Used to create a strong and stable surface for electric transmission, oil and gas, construction and industrial industries.

- Interlocking Overlapping Mat System
- Heavy Duty : 7' x 14'
- Made from High Density Polyethylene
- Improves traction on load bearing vehicles.
- Significantly outperforms wood mats in endurance, mobility, and environmental protection.

PIPELINE SKIDS

Mainly used in the oil and gas industries to help elevate and stabilize pipelines. Designed to provide consistent spacing and ground separation, helping protect pipe and improve handling efficiency across pipeline and construction sites.

- 4" X 6" X 4'
- Full Sawn or Nominal
- Made from Mixed Hardwoods.

TIMBER MATS

Used under hydraulic and dragline machinery, crawler cranes, and any other equipment up to 120,000 lbs to provide ground stabilization and support. Commonly used across the pipeline, transmission, excavation, and demolition industries.

- 8" thick, available in lengths from 16' to 18'
- Manufactured with Mixed Hardwoods
- Exposed Bolts for Lifting and Hoisting Points.
